

1. Brief Profile

Global Info Systems has developed a myriad of applications for various government organizations regarding e-Governance & m-Governance. A few of them are in use at Punjab Mandi Board, Department of Vigilance, Punjab, Department of Forest, Punjab and Department of sports and Youth Affairs, Haryana, Haryana Swana Jayanti Celebrations 2017, Haryana.gov.in, hartron.org.in and many more....

We are thankful to Hon'ble CM, Punjab, S. Parksah Singh Badal for inaugurating www.punjabpragati.com.

Global Info System is also thankful to Hon'ble CM, Haryana Sh. Manohar Lal Khattar for inaugurating Web portal for Haryana Swarna Jayanti Celebration 2016-17, Advocate General Haryana, Sahitya Sangam 2017, Haryana.

The rates of Global Info System for Design, Development, Trainings, Search Engine Optimization and Implementation has been approved for its client department by Haryana Electronics Development Corporation Ltd. (HARTRON) the nodal agency for Departments of Govt. of Haryana.

A case in point is portal "www.punjabpragati.com" which was developed in year 2007 with some modules, but now it has been further expanded with many more modules added and now it is a full-fledged portal for the monitoring of life cycle of projects from Admin Approval to Completion Certificate of the project. This application helps in monitoring of all development works of the state. This product is the first of its kind in the country.

We understand requirement gathering is the most tedious yet most critical task in Government Departments and we at Global Info Systems put maximum emphasis on the process of requirement gathering like Customer Requirement Solution, Software requirement System, Feasibility Study for implementation and functional requirement of the system.

Global Info Systems develops applications as a product to be in use for long term. Global Info Systems would like to have SOS (Service Oriented Solution) MODEL for all the applications implemented in organization for better implementation and best service.

Global Info Systems has developed one more useful application for real-time monitoring of contribution calculation of Market Fees on agricultural produce for Punjab Mandi Board.. Achievement / Milestone-

Global Info Systems has recently delivered the finance module for the monitoring of Income, Expenditure, Budget allocation of the organization at Head Quarter, Circle, Division and Block level Offices. Global Info Systems has also developed a platform for secure and robust system for data transfer for various ITES companies.

Project Experience – Global Info System

#	Name of Project	Name and address of Client	Duration (dates) of assignment	Status of assignment	Brief description
